“ Although I have lot's of memories with my brother-in-law Bill one of my earliest goes back to when he & Nonie were just dating. He owned a little MG-B. It was long before seatbelts & child safety laws I would ride on the center arm rest between them and would wave to people in passing cars like I was 4 year old, Queen of Kansas or at least little Miss Kansas. He just laughed and shook his head. He put up with me tagging along on most of their dates.

“ Remembering the time I tricked him in to giving up his seat at Mom's having him believe Norma was not bringing his dinner plate to him.
